

Pointers

1. Write a function that will take a pointer and display the number on the screen.
Take a number from the user and print it on the screen using that function.
2. Write a program to find the factorial of a number using pointers.
3. Write a program to reverse the digits of a number using pointers.
4. Write a program to find out the greatest and the smallest among three numbers using pointers.
5. Write a C++ program to find the max of an integral data set. The program will ask the user to input the number of data values in the set and each value. The program prints on the screen a pointer that points to the max value.
6. Write a C++ program for Counting vowels String using Pointers.
7. Write a C++ program to Read, Print, and Sum of Integers in an array using pointers.
